A Mutual Regional Bank for NI

NIVCA, 19 August 2020

A Mutual Regional Bank

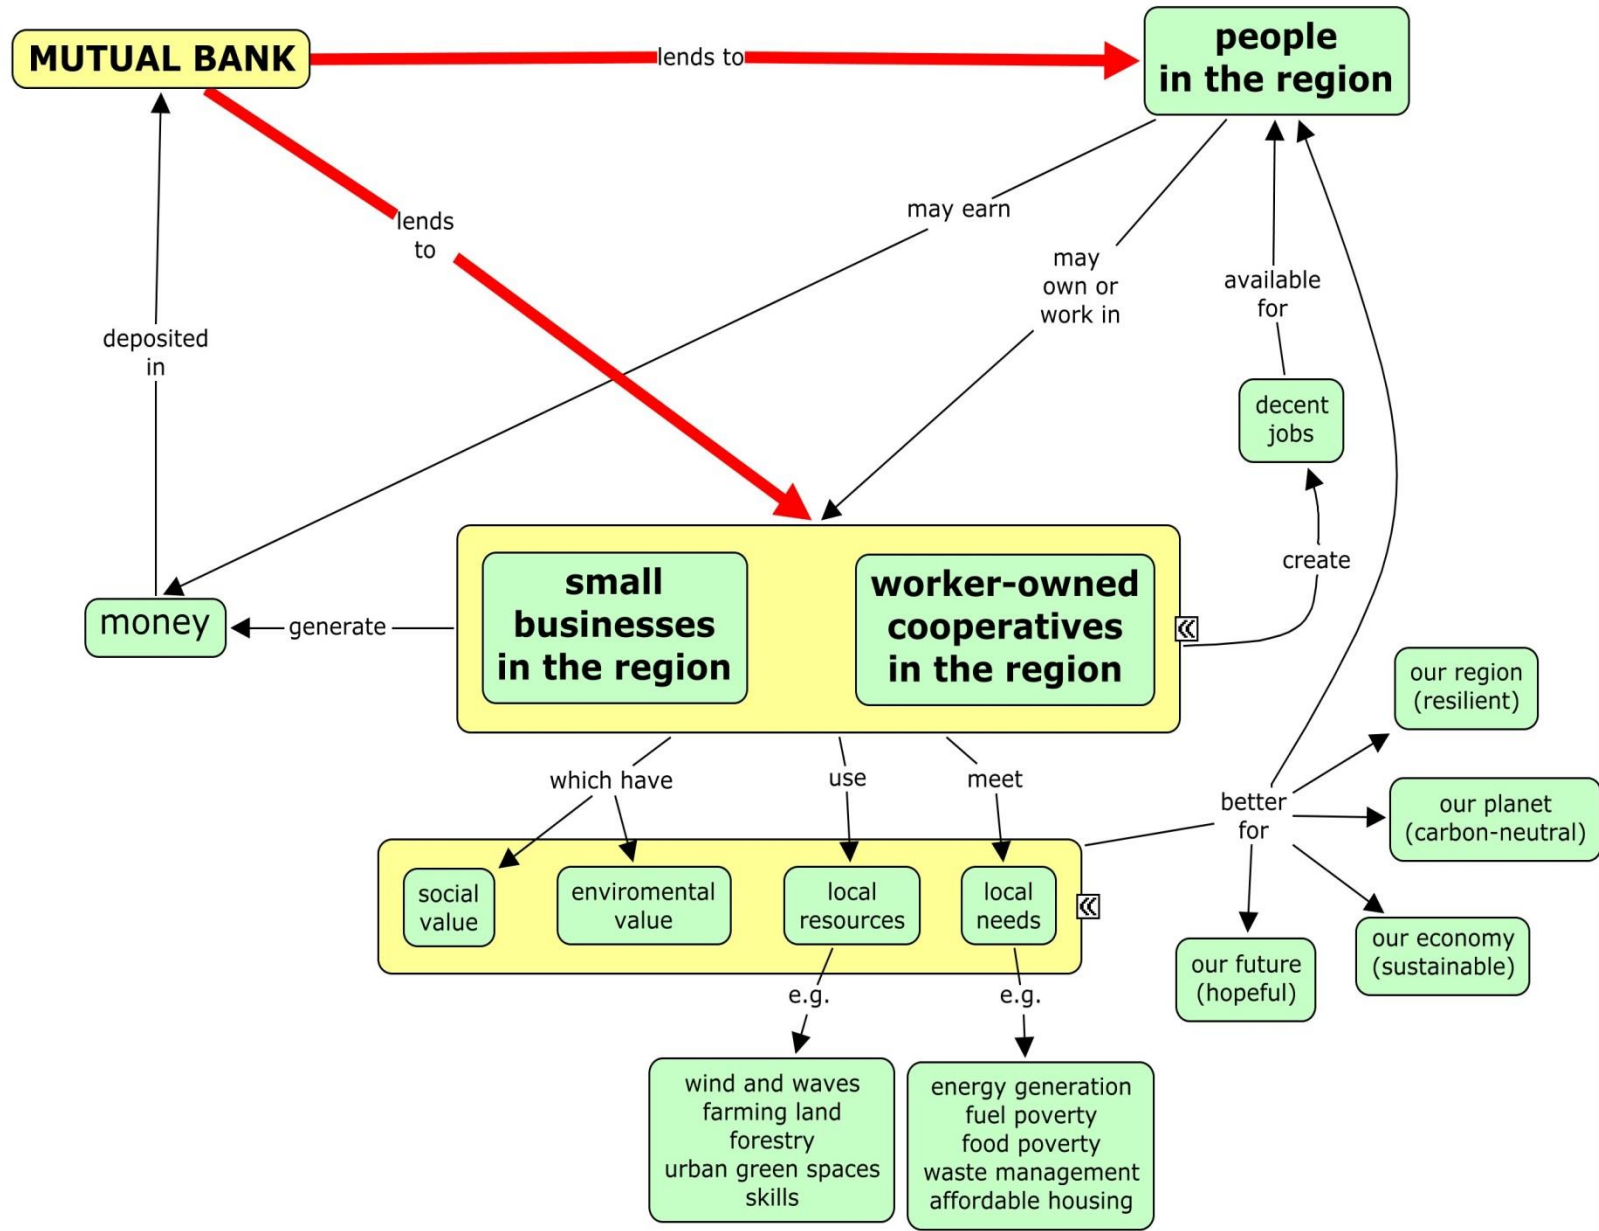

- Mutual banking is:
 - *An alternative approach to banking as we know it*
 - *Moves away from the privatised system that exists now*
 - *Moves towards a democratised system that gives each of us a say in how **our money** can be used for our benefit and the benefit of our region.*

A Mutual Regional Bank

- **Mutual** - owned by members/customers, not by shareholders; accountable to members.
- **Regional** - serves the NI region only; members live in the region; recycles money back into region; prioritises local businesses/co-ops.
- **Ethical** - not profit-driven; prioritises: what's best for people in the region; what's best for the environment.
- **Inclusive** - no one refused an account.
- **Resilient** - gives us more control over our own money so as a region we can manage climate and other crises.

outside our region

The Campaign

- CSBA banking model - A-Z package for starting a bank, including licensing process, financial modelling, agreements with key suppliers.
- Investment capital approx. £20m.
- The CSBA has a vision is to start a new movement of 19 regional banks (including NI).
- Other regions have launched campaigns e.g. Greater London Mutual, Avon, South West, Wales, North East England, North West England.

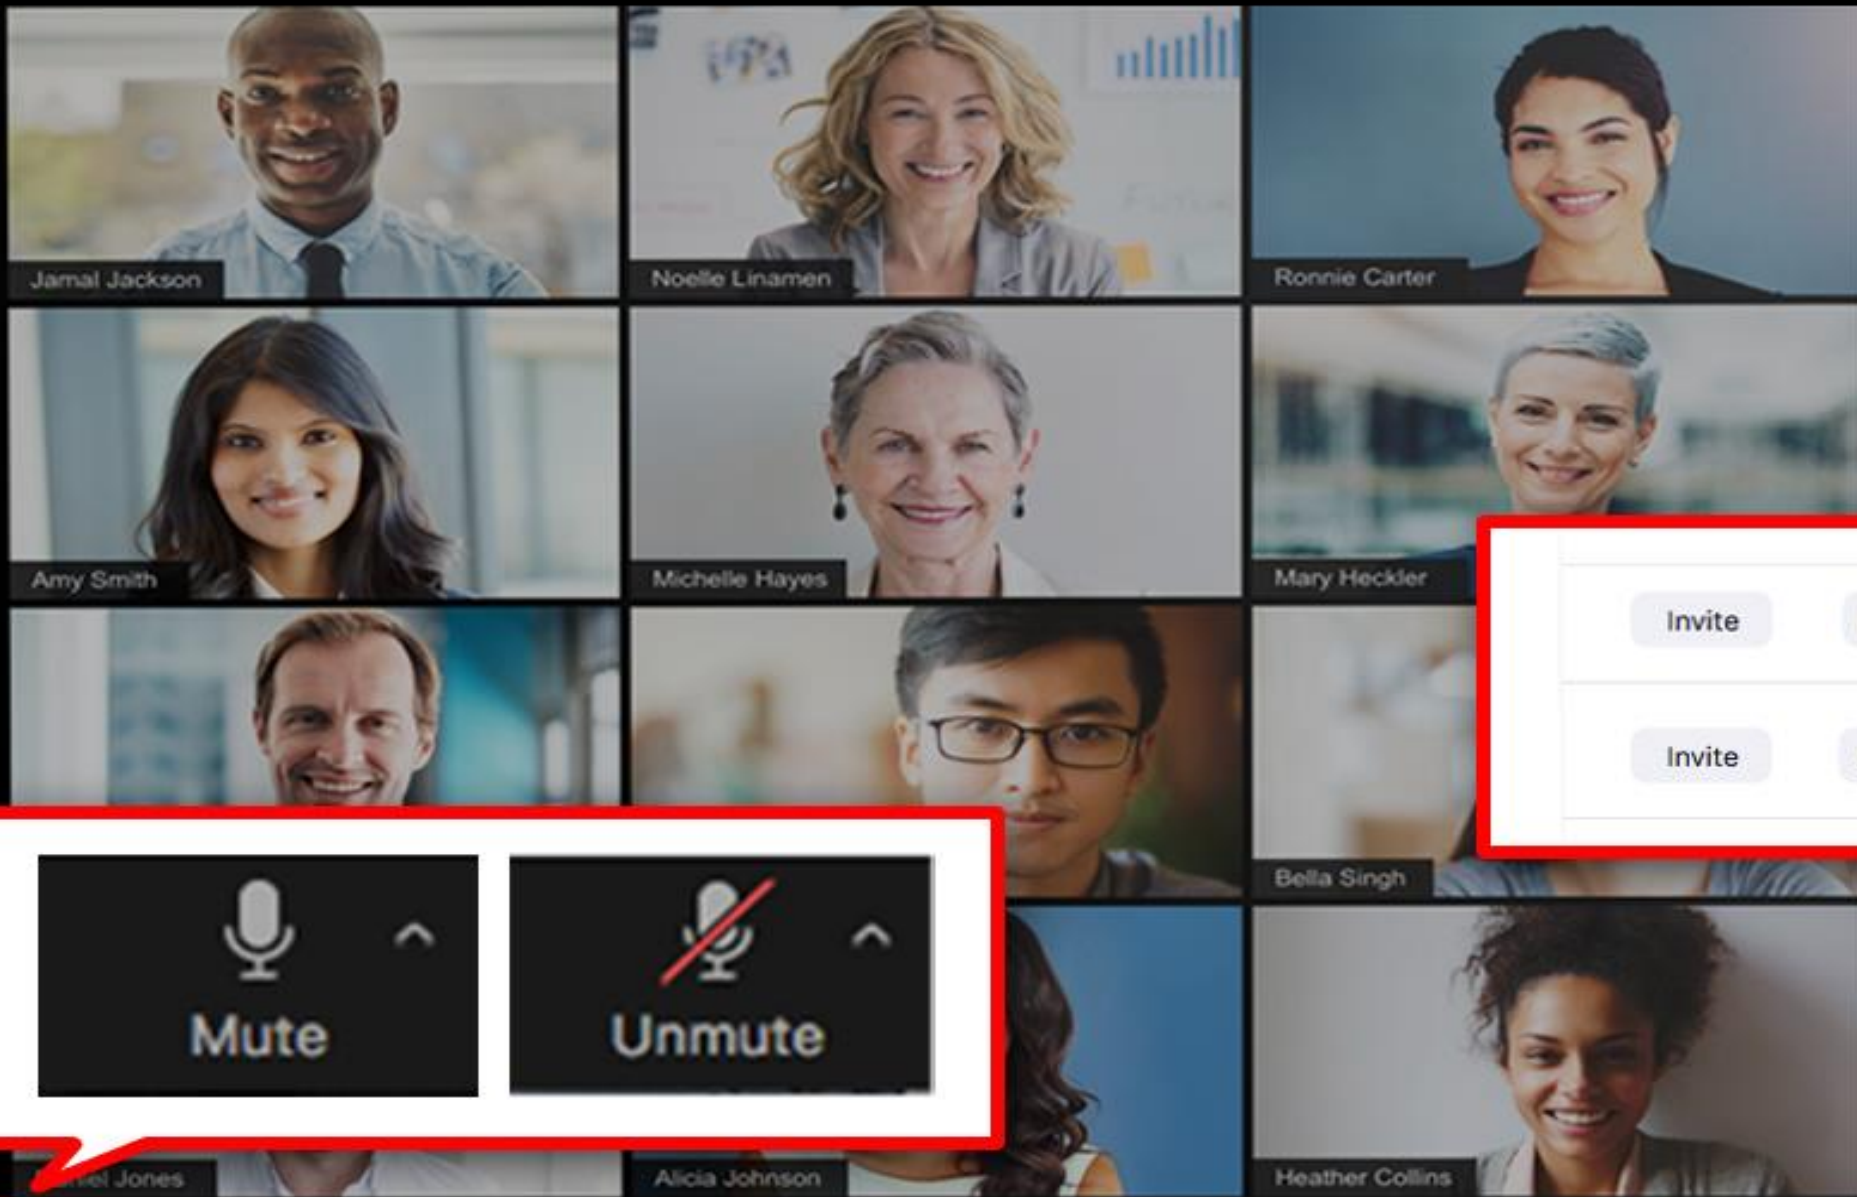

The Campaign

- We are growing our support.
- We have assembled a Steering Committee to take the bank through the licensing and development stages.
- We need your support to:
 - *Spread the word*
 - *Lobby your local CU, council, etc.*
 - *Pledge to become a member*

Questions & Answers

To ask a question:

- Type your question/issue directly into the Chat Function.
- Any problems , raise your hand using the 'raise your hand' function – click 'Participants' and then 'Raise your hand' against your name in the list.
- Remember to 'unmute' your microphone to speak.
- Bridget and Tiziana very happy to take questions via email after todays session.
